ABOUT ME

I'm a detail-driven and reliable QA Engineer with years of experience in API, UI, and consumer testing – with a strong focus on ML-powered systems. I build effective test strategies, optimize CI/CD pipelines, and ensure high product quality. I'm growing into a T-shaped QA, expanding my developer skills to contribute more broadly across product and engineering teams.

EDUCATION

UNIVERSITY (BACHELOR'S DEGREE)

(2016 – 2020)

Kocaeli University | Faculty of Engineering | Electrical Engineering

WORK EXPERIENCE

SOFTWARE DEVELOPER IN TEST

Trendyol

Jan 2024 - Present

- Spearheaded quality assurance for an ML-powered API service, ensuring reliable and high-performance solutions.
- Architected and executed comprehensive testing strategies, encompassing end-to-end, integration, functional, and performance testing.
- Optimized CI/CD efficiency by restructuring pipelines and implementing parallel execution, reducing test times by up to 90%.
- Streamlined deployment processes and pipeline architectures, contributing to improved scalability and maintainability.
- Drove continuous quality improvement by establishing QA roadmaps, test maturity, and process documentation.
- Engineered a custom evaluation tool to measure ML model performance using key business metrics, enabling consistent iteration tracking.
- Maintained system health and availability by leveraging observability platforms (e.g., Grafana) for proactive monitoring and incident response.

QUALITY ASSURANCE ENGINEER

Insider

Dec 2022 - Jan 2024

- Conducted manual and automated testing of web and mobile applications
- Developed and executed test plans, test cases, and test scripts with TestRail
- Identified, documented, tracked and monitored software defects using Grafana
- Collaborated with developers, product managers, and designers to ensure high-quality software delivery
- Guiding newcomers and preparing a Regression Test Plan for products
- Contributed to process improvement initiatives and use tools like AWS, Jenkins

ASSOCIATE SOFTWARE DEVELOPER IN TEST

Trendyol

June 2022 - August 2022

- Writing & Running Automation Tests in isolated platform
- BDD API Acceptance Testing with Java Rest-Assured
- Completion of Gatek integration of the API project
- Maintain existing tests, monitor failures and report bugs
- Understanding of CI/CD, STLC, Docker, Kubernetes

SOFTWARE TEST ENGINEER

KocDigital @via TesterYou

April 2022 - June2022

- Understanding Agile processes and keeping in touch all the time with Scrum team
- Test Case Preparing and writing with Azure and maintenance of existing test cases
- API testing with Postman

MANUAL MOBILE TESTER

BorusanCAT @via TesterYou

February 2022 - March 2022

TEST AUTOMATION BOOTCAMP STUDENT

TesterYou

February 2022

TEST AUTOMATION BOOTCAMP STUDENT
